The deadline for submission of tenders is 11PM of 18/03/2024.

Date Bar Production Line

This tender is issued for the procurement of a Date Bars production line, which includes additional components such as oats, nuts, cereal, sesame, puffed rice, and more.

The production line should be designed to handle different stages of the production process and should be built to the highest quality standards. In order to ensure consistent and reliable performance, each component of the line is made from high-quality materials and is equipped with best possible technology. The equipment components also should be equipped with high-quality electrical and pneumatic systems, which should be selected to ensure long-term reliability and efficient operation. Additionally, the line should be equipped with a range of features that help to minimize waste and reduce downtime, resulting in improved efficiency and reduced costs. In addition, it is requested to provide: training, installation, warranty and delivery in Jericho (West Bank).

The production line comprises the following units:

- 1) Homogenizer/Mixer;
- 2) Transport Conveyor;
- 3) Extruder for Forming Date Bars; and
- 4) Packing Unit.
